

Crowdfunding Report:

Family, an important pillar in education

Quetzaltenango, Guatemala, C.A., March 2020

TITLE OF REPORT

Family, an important pillar in education

As a project, we believe that family support is crucial for the educational development of the young girls.

On this occasion, we would like to tell you the story of Cadiola, a young girl who has been supported by the Scholarships for Girls program for 6 years. Throughout these years, she has proved to be a cheerful and collaborative young woman that likes to study.

Mrs. Dalila, Cadiola's mother, does not know how to read or write. However, this has not been an obstacle to give her daughter the opportunity to study, as she wants her to have a better future and be able to fulfill her dreams. Cadiola's grandfather also encourages her to fight for what she wants, and that they as a family will support her as much as they can.

Thanks to your help, Cadiola is able to finish her basic education. Thank you for trusting our work and for believing that young girls can fulfill their dreams and have a promising future.
