

Crowdfunding Report:

**The start of a “different”
school cycle**

Quetzaltenango, Guatemala, C.A., January 2021

TITLE OF REPORT

The start of a “different” school cycle

Every new school year represents for teachers and students a new range of novelties, uncertainties, challenges, purposes, relationships, conditions and expectations.

This year the scholarship project started with great enthusiasm with the girls, we are convinced that despite the circumstances we will continue our journey in pursuit of the best for the girls, the family and the community.

Thanks to your support, this year 15 girls continue studying in the basic cycle. They have new goals, new dreams, that day by day they will strive to achieve what they set out to do: be disciplined and enthusiastic students, to be good daughters, and to be responsible people in everything they do by continuing their studies, and therefore become successful professionals.
